**Development of Timeline for “Live Licensing”:**
The Executive Committee was mandated by the Commission to develop a timeline for the first received application, processing and approval of an interstate medical compact license. Included in that timeline was to be the pilot/dry run project proposed at the March meeting of the Commission in St. Paul, Minnesota. On a motion by Commissioner Hansen (SD) and seconded by Commissioner Thomas (MN) the Executive Committee unanimously approved the creation of an ad-hoc committee to work with the volunteer states who have Executive Directors on the Commission, along with their licensing staff, under the leadership of Commissioner Hansen (SD) and Commissioner Bowden (IA).

1) IMLCC Technology Committee should take lead in the process;
2) Four member states volunteered to participate in the pilot project at the March meeting of the IMLCC. Those member states included: Minnesota, Iowa, Alabama and South Dakota. Two additional member states have volunteered including Wisconsin and Illinois.
3) The State of Wyoming volunteered to serve as the “HUB” during the project.
4) Iowa and Illinois will receive the applications and report what additional “must have” information is required by state of principal licensure.
5) A report from all sections of the ad-hoc committee’s work should be presented at the next meeting of the Executive Committee, scheduled for May 10, 2016.
